# INTERACTIVE BOARDS & LED DISPLAYS

With a high accuracy & quick response time, Our Interactive LED perfect teaching assistant or presentation tool. Annotate over any application, surf the Web, save your annotations, mark up, brain storm and create presentations.

Interactive white boards are power tools in the classroom adding interactive activity and collaboration, allowing the integration of media content into the lecture and supporting collaborative learning. Used innovatively they create a wide range of learning opportunities.

# VIDEO WALLS& PROCESSORS

**Video wall** consists of multiple screens grouped together to form one large display. Combining a robust design and ultra narrow bezel with outstanding image clarity , high brightness and wide viewing angles. Excellent color range and low power consumption make this an outstanding display for signage. Ideal for

- Public information display
- Signage
- Corporate board rooms reception areas
- Control rooms
- Broadcast studios

**Video wall processors** enables the display of multiple sources across video walls or a display wall. Video wall controllers offer perfect solution for any video wall or control room visualizations requirement. Integration of high technology hardware and software components ensure the best graphics performance over the entire wall surface

# MEETING ROOM BOOKING SYSTEM

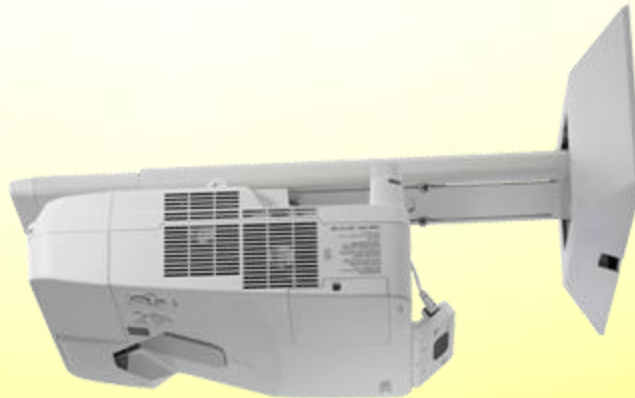

Meeting room manager helps you to achieve better operational efficiency And reduce cost through improved business processes by providing customers with an easy to use , easily accessible system to check availability and book a room for their next event, function or meeting all online and in real time. The 8” screen allows the instant room booking and extension of an ongoing meeting with the finger touch.

# PROJECTORS

Projectors are an integral part of any AV installation. We are specialized in Supply and installation of wide range of projectors including short throw and High definition ones.

# VIDEO CONFERENCING

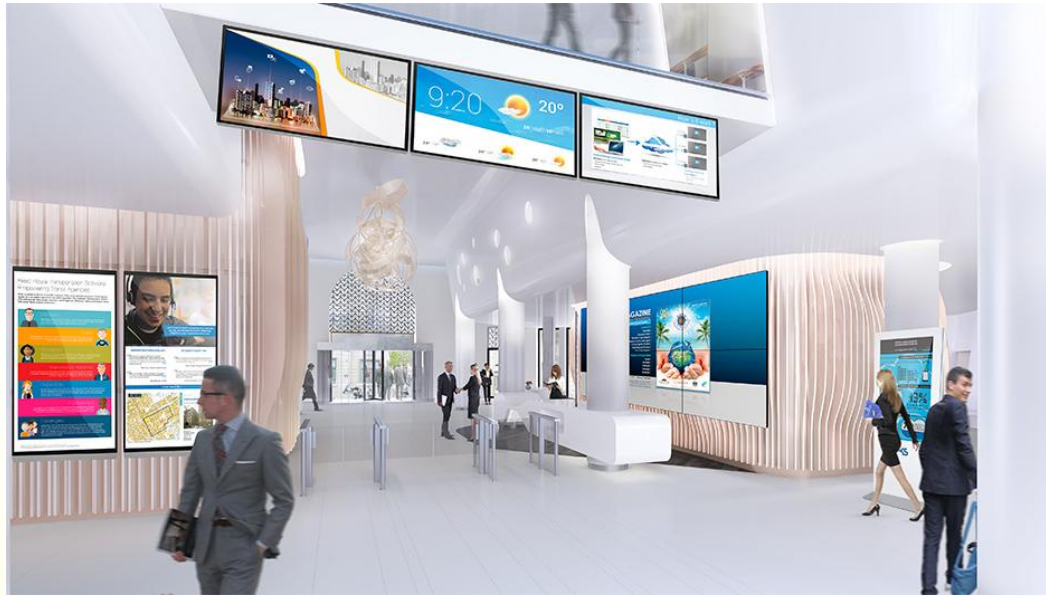

Video conferencing connects individuals in real time through audio and Video communication over broad band net works enabling visual meetings And collaboration on digital documents and shared presentations.

# WIRELESS PRESENTATION SYSTEM

Our wireless presentation system connects to any display HDMI or VGA and creates a wireless projection In full 1080p resolution . When connected to a local area network, It allows presentations from network computers and supports a passthrough internet connection
