About Us

Know more about the company

TransNational Computer is one of the top providers of IT and accounting services in Dubai, we offer excellent installation and support services. We have been representing Intuit QuickBooks and Sage as Master Partners in 25 different nations throughout the world. We entered the information technology sector in 1995 as a PC assembler and quickly rose to become one of the few IT businesses to have grown "organically."

Later, we recognized a chance to assist small businesses by offering them business solutions, and we began doing business with accounting software packages, CRM, HR, and payroll software, as well as small business applications. We develop specialized software for SME's.

We have added additional experience to our portfolio such as Software Implementation, Software Troubleshooting, Crystal Report writing etc. We offer our customers a wide range of products backed by proactive support, competitive pricing and superior services. We represent many global software companies (like HansaWorld, Accounting Suite, etc.) as their premium partner in the region.

Our Vision

Know more about our company vision

"We always keep THE LONG-TERM VIEW in mind. For the client, it is a long-term investment. For us, as a solution designer and provider, it is a long-term project"

Mr. Vijendra Singh
MD, TransNational Computer LLC

Vision

By delivering excellence, we hope to give our suppliers a clear advantage and become their preferred distribution channel.

At TNC, we are certain that our vision is what propels our ongoing expansion. Our goal of creating an institution that would outlast our lives and a strong tendency to be motivated by values remains the same. We consider ourselves to be in the transformational business. As a result, at TNC, we strive to transform people for God's glory.
